

public notice establishing the payment deadline. If a winning bidder fails to pay the balance of its winning bids in a lump sum by the applicable deadline as specified by the Commission, it will be allowed to make payment within ten (10) business days after the payment deadline, provided that it also pays a late fee equal to five percent of the amount due. When a winning bidder fails to pay the balance of its winning bid by the late payment deadline, it is considered to be in default on its license(s) and subject to the applicable default payments. Licenses will be awarded upon the full and timely payment of winning bids and any applicable late fees.

(b) If a winning bidder withdraws its bid after the Commission has declared competitive bidding closed or fails to remit the required down payment within ten (10) business days after the Commission has declared competitive bidding closed, the bidder will be deemed to have defaulted, its application will be dismissed, and it will be liable for the default payment specified in §§1.2104(g)(2) or 1.2104(g)(3), whichever is applicable. In such event, the Commission, at its discretion, may either re-auction the license(s) to existing or new applicants or offer it to the other highest bidders (in descending order) at their final bids. If the license(s) is offered to the other highest bidders (in descending order), the down payment obligations set forth in §1.2107(b) will apply. However, in combinatorial bidding auctions, the Commission will only re-auction the license(s) to existing or new applicants. The Commission will not offer the package or licenses to the next highest bidder.

(c) A winning bidder who is found unqualified to be a licensee, fails to remit the balance of its winning bid in a timely manner, or defaults or is disqualified for any reason after having made the required down payment, will be deemed to have defaulted, its application will be dismissed, and it will be liable for the payment set forth in §§1.2104(g)(2) or 1.2104(g)(3), whichever is applicable. In such event, the Commission may either re-auction the license(s) to existing or new applicants or offer it to the other highest bidders (in descending order) at their final

bids. However, in combinatorial bidding auctions, the Commission will only re-auction the license(s) to existing or new applicants. The Commission will not offer the package or licenses to the next highest bidder.

(d) Bidders who are found to have violated the antitrust laws or the Commission's rules in connection with their participation in the competitive bidding process may be subject, in addition to any other applicable sanctions, to forfeiture of their upfront payment, down payment or full bid amount, and may be prohibited from participating in future auctions.

[59 FR 44293, Aug. 26, 1994, as amended at 62 FR 13544, Mar. 21, 1997; 63 FR 2343, Jan. 15, 1998; 68 FR 42996, July 21, 2003]

#### § 1.2110 Designated entities.

(a) Designated entities are small businesses, businesses owned by members of minority groups and/or women, and rural telephone companies.

(b) *Eligibility for small business and entrepreneur provisions*—(1) *Size attribution*. (i) The gross revenues of the applicant (or licensee), its affiliates, its controlling interests, and the affiliates of the applicant's controlling interests shall be attributed to the applicant and considered on a cumulative basis and aggregated for purposes of determining whether the applicant (or licensee) is eligible for status as a small business, very small business, or entrepreneur, as those terms are defined in the service-specific rules. An applicant seeking status as a small business, very small business, or entrepreneur, as those terms are defined in the service-specific rules, must disclose on its short- and long-form applications, separately and in the aggregate, the gross revenues of the applicant (or licensee), its affiliates, its controlling interests, and the affiliates of the applicant's controlling interests for each of the previous three years.

(ii) If applicable, pursuant to §24.709 of this chapter, the total assets of the applicant (or licensee), its affiliates, its controlling interests and affiliates of the applicant's controlling interests shall be attributed to the applicant and considered on a cumulative basis and aggregated for purposes of determining whether the applicant (or licensee) is

## Federal Communications Commission

## § 1.2110

eligible for status as an entrepreneur. An applicant seeking status as an entrepreneur must disclose on its short- and long-form applications, separately and in the aggregate, the gross revenues of the applicant (or licensee), its affiliates, its controlling interests and affiliates of the applicant's controlling interests for each of the previous two years.

(2) *Aggregation of affiliate interests.* Persons or entities that hold interests in an applicant (or licensee) that are affiliates of each other or have an identity of interests identified in § 1.2110(c)(5)(iii) will be treated as though they were one person or entity and their ownership interests aggregated for purposes of determining an applicant's (or licensee's) compliance with the requirements of this section.

*Example 1 to paragraph (b)(2):* ABC Corp. is owned by individuals, A, B and C, each having an equal one-third voting interest in ABC Corp. A and B together, with two-thirds of the stock have the power to control ABC Corp. and have an identity of interest. If A&B invest in DE Corp., a broadband PCS applicant for block C, A and B's separate interests in DE Corp. must be aggregated because A and B are to be treated as one person or entity.

*Example 2 to paragraph (b)(2):* ABC Corp. has subsidiary BC Corp., of which it holds a controlling 51 percent of the stock. If ABC Corp. and BC Corp., both invest in DE Corp., their separate interests in DE Corp. must be aggregated because ABC Corp. and BC Corp. are affiliates of each other.

(3) *Exceptions.* (i) *Consortium.* Where an applicant (or licensee) is a consortium of small businesses, very small businesses, or entrepreneurs, as those terms are defined in the service-specific rules, the gross revenues of each consortium member shall not be aggregated. Each consortium member must constitute a separate and distinct legal entity to qualify.

(ii) Applicants without identifiable controlling interests. Where an applicant (or licensee) cannot identify controlling interests under the standards set forth in this section, the gross revenues of all interest holders in the applicant, and their affiliates, will be attributable.

(iii) *Rural telephone cooperatives.* (A) An applicant will be exempt from § 1.2110(c)(2)(ii)(F) for the purpose of at-

tribution in § 1.2110(b)(1), if the applicant or a controlling interest in the applicant, as the case may be, meets all of the following conditions:

(1) the applicant (or the controlling interest) is organized as a cooperative pursuant to state law;

(2) the applicant (or the controlling interest) is a "rural telephone company" as defined by the Communications Act; and

(3) the applicant (or the controlling interest) is eligible for tax-exempt status under the Internal Revenue Code. The applicant will not be exempt from § 1.2110(c)(2)(ii)(F) for the purpose of attribution in § 1.2110(b)(1) if the gross revenues or other financial and management resources of the affiliates of the applicant's officers and directors (or the controlling interest's officers and directors) are available to the applicant.

(B) However, if the applicant is not an eligible rural telephone cooperative under paragraph (a) of this section, and the applicant has a controlling interest other than the applicant's officers and directors or an eligible rural telephone cooperative's officers and directors, paragraph (a) of this section applies with respect to the applicant's officers and directors and such controlling interest's officers and directors only when such controlling interest is either:

(1) An eligible rural telephone cooperative under paragraph (a) of this section or

(2) controlled by an eligible rural telephone cooperative under paragraph (a) of this section.

(c) *Definitions—*(1) *Small businesses.* The Commission will establish the definition of a small business on a service-specific basis, taking into consideration the characteristics and capital requirements of the particular service.

(2) *Controlling interests.* (i) For purposes of this section, controlling interest includes individuals or entities with either *de jure* or *de facto* control of the applicant. *De jure* control is evidenced by holdings of greater than 50 percent of the voting stock of a corporation, or in the case of a partnership, general partnership interests. *De facto* control is determined on a case-by-case basis. An entity must disclose

its equity interest and demonstrate at least the following indicia of control to establish that it retains *de facto* control of the applicant:

(A) The entity constitutes or appoints more than 50 percent of the board of directors or management committee;

(B) The entity has authority to appoint, promote, demote, and fire senior executives that control the day-to-day activities of the licensee; and

(C) The entity plays an integral role in management decisions.

(ii) *Calculation of certain interests.*

(A) *Fully diluted requirement.* (1) Except as set forth in paragraph (c)(2)(ii)(A)(2) of this section, ownership interests shall be calculated on a fully diluted basis; all agreements such as warrants, stock options and convertible debentures will generally be treated as if the rights thereunder already have been fully exercised.

(2) Rights of first refusal and put options shall not be calculated on a fully diluted basis for purposes of determining *de jure* control; however, rights of first refusal and put options shall be calculated on a fully diluted basis if such ownership interests, in combination with other terms to an agreement, deprive an otherwise qualified applicant or licensee of *de facto* control.

NOTE TO PARAGRAPH (c)(2)(ii)(A): Mutually exclusive contingent ownership interests, i.e., one or more ownership interests that, by their terms, are mutually exclusive of one or more other ownership interests, shall be calculated as having been fully exercised only in the possible combinations in which they can be exercised by their holder(s). A contingent ownership interest is mutually exclusive of another only if contractual language specifies that both interests cannot be held simultaneously as present ownership interests.

(B) Partnership and other ownership interests and any stock interest equity, or outstanding stock, or outstanding voting stock shall be attributed as specified.

(C) Stock interests held in trust shall be attributed to any person who holds or shares the power to vote such stock, to any person who has the sole power to sell such stock, and to any person who has the right to revoke the trust at will or to replace the trustee at will. If the trustee has a familial, personal,

or extra-trust business relationship to the grantor or the beneficiary, the grantor or beneficiary, as appropriate, will be attributed with the stock interests held in trust.

(D) Non-voting stock shall be attributed as an interest in the issuing entity.

(E) Limited partnership interests shall be attributed to limited partners and shall be calculated according to both the percentage of equity paid in and the percentage of distribution of profits and losses.

(F) Officers and directors of the applicant shall be considered to have a controlling interest in the applicant. The officers and directors of an entity that controls a licensee or applicant shall be considered to have a controlling interest in the licensee or applicant. The personal net worth, including personal income of the officers and directors of an applicant, is not attributed to the applicant. To the extent that the officers and directors of an applicant are affiliates of other entities, the gross revenues of the other entities are attributed to the applicant.

(G) Ownership interests that are held indirectly by any party through one or more intervening corporations will be determined by successive multiplication of the ownership percentages for each link in the vertical ownership chain and application of the relevant attribution benchmark to the resulting product, except that if the ownership percentage for an interest in any link in the chain exceeds 50 percent or represents actual control, it shall be treated as if it were a 100 percent interest.

(H) Any person who manages the operations of an applicant or licensee pursuant to a management agreement shall be considered to have a controlling interest in such applicant or licensee if such person, or its affiliate, has authority to make decisions or otherwise engage in practices or activities that determine, or significantly influence:

(1) The nature or types of services offered by such an applicant or licensee;

(2) The terms upon which such services are offered; or

(3) The prices charged for such services.

## Federal Communications Commission

## § 1.2110

(I) Any licensee or its affiliate who enters into a joint marketing arrangement with an applicant or licensee, or its affiliate, shall be considered to have a controlling interest, if such applicant or licensee, or its affiliate, has authority to make decisions or otherwise engage in practices or activities that determine, or significantly influence:

(1) The nature or types of services offered by such an applicant or licensee;

(2) The terms upon which such services are offered; or

(3) The prices charged for such services.

(3) *Businesses owned by members of minority groups and/or women.* Unless otherwise provided in rules governing specific services, a business owned by members of minority groups and/or women is one in which minorities and/or women who are U.S. citizens control the applicant, have at least greater than 50 percent equity ownership and, in the case of a corporate applicant, have a greater than 50 percent voting interest. For applicants that are partnerships, every general partner must be either a minority and/or woman (or minorities and/or women) who are U.S. citizens and who individually or together own at least 50 percent of the partnership equity, or an entity that is 100 percent owned and controlled by minorities and/or women who are U.S. citizens. The interests of minorities and women are to be calculated on a fully diluted basis; agreements such as stock options and convertible debentures shall be considered to have a present effect on the power to control an entity and shall be treated as if the rights thereunder already have been fully exercised. However, upon a demonstration that options or conversion rights held by non-controlling principals will not deprive the minority and female principals of a substantial financial stake in the venture or impair their rights to control the designated entity, a designated entity may seek a waiver of the requirement that the equity of the minority and female principals must be calculated on a fully-diluted basis. The term minority includes individuals of Black or African American, Hispanic or Latino, American Indian or Alaskan Native,

Asian, and Native Hawaiian or Pacific Islander extraction.

(4) *Rural telephone companies.* A rural telephone company is any local exchange carrier operating entity to the extent that such entity—

(i) Provides common carrier service to any local exchange carrier study area that does not include either:

(A) Any incorporated place of 10,000 inhabitants or more, or any part thereof, based on the most recently available population statistics of the Bureau of the Census, or

(B) Any territory, incorporated or unincorporated, included in an urbanized area, as defined by the Bureau of the Census as of August 10, 1993;

(ii) Provides telephone exchange service, including exchange access, to fewer than 50,000 access lines;

(iii) Provides telephone exchange service to any local exchange carrier study area with fewer than 100,000 access lines; or

(iv) Has less than 15 percent of its access lines in communities of more than 50,000 on the date of enactment of the Telecommunications Act of 1996.

(5) *Affiliate.* (i) An individual or entity is an affiliate of an applicant or of a person holding an attributable interest in an applicant if such individual or entity—

(A) Directly or indirectly controls or has the power to control the applicant, or

(B) Is directly or indirectly controlled by the applicant, or

(C) Is directly or indirectly controlled by a third party or parties that also controls or has the power to control the applicant, or

(D) Has an “identity of interest” with the applicant.

(ii) Nature of control in determining affiliation.

(A) Every business concern is considered to have one or more parties who directly or indirectly control or have the power to control it. Control may be affirmative or negative and it is immaterial whether it is exercised so long as the power to control exists.

*Example.* An applicant owning 50 percent of the voting stock of another concern would have negative power to control such concern since such party can block any action of the

other stockholders. Also, the bylaws of a corporation may permit a stockholder with less than 50 percent of the voting stock to block any actions taken by the other stockholders in the other entity. Affiliation exists when the applicant has the power to control a concern while at the same time another person, or persons, are in control of the concern at the will of the party or parties with the power to control.

(B) Control can arise through stock ownership; occupancy of director, officer or key employee positions; contractual or other business relations; or combinations of these and other factors. A key employee is an employee who, because of his/her position in the concern, has a critical influence in or substantive control over the operations or management of the concern.

(C) Control can arise through management positions where a concern's voting stock is so widely distributed that no effective control can be established.

*Example.* In a corporation where the officers and directors own various size blocks of stock totaling 40 percent of the corporation's voting stock, but no officer or director has a block sufficient to give him or her control or the power to control and the remaining 60 percent is widely distributed with no individual stockholder having a stock interest greater than 10 percent, management has the power to control. If persons with such management control of the other entity are persons with attributable interests in the applicant, the other entity will be deemed an affiliate of the applicant.

(iii) *Identity of interest between and among persons.* Affiliation can arise between or among two or more persons with an identity of interest, such as members of the same family or persons with common investments. In determining if the applicant controls or has the power to control a concern, persons with an identity of interest will be treated as though they were one person.

*Example.* Two shareholders in Corporation Y each have attributable interests in the same PCS application. While neither shareholder has enough shares to individually control Corporation Y, together they have the power to control Corporation Y. The two shareholders with these common investments (or identity in interest) are treated as though they are one person and Corporation Y would be deemed an affiliate of the applicant.

(A) *Spousal affiliation.* Both spouses are deemed to own or control or have the power to control interests owned or controlled by either of them, unless they are subject to a legal separation recognized by a court of competent jurisdiction in the United States. In calculating their net worth, investors who are legally separated must include their share of interests in property held jointly with a spouse.

(B) *Kinship affiliation.* Immediate family members will be presumed to own or control or have the power to control interests owned or controlled by other immediate family members. In this context "immediate family member" means father, mother, husband, wife, son, daughter, brother, sister, father- or mother-in-law, son- or daughter-in-law, brother- or sister-in-law, step-father or -mother, step-brother or -sister, step-son or -daughter, half brother or sister. This presumption may be rebutted by showing that the family members are estranged, the family ties are remote, or the family members are not closely involved with each other in business matters.

*Example.* A owns a controlling interest in Corporation X. A's sister-in-law, B, has an attributable interest in a PCS application. Because A and B have a presumptive kinship affiliation, A's interest in Corporation Y is attributable to B, and thus to the applicant, unless B rebuts the presumption with the necessary showing.

(iv) *Affiliation through stock ownership.* (A) An applicant is presumed to control or have the power to control a concern if he or she owns or controls or has the power to control 50 percent or more of its voting stock.

(B) An applicant is presumed to control or have the power to control a concern even though he or she owns, controls or has the power to control less than 50 percent of the concern's voting stock, if the block of stock he or she owns, controls or has the power to control is large as compared with any other outstanding block of stock.

(C) If two or more persons each owns, controls or has the power to control less than 50 percent of the voting stock of a concern, such minority holdings are equal or approximately equal in size, and the aggregate of these minority holdings is large as compared with

any other stock holding, the presumption arises that each one of these persons individually controls or has the power to control the concern; however, such presumption may be rebutted by a showing that such control or power to control, in fact, does not exist.

(v) Affiliation arising under stock options, convertible debentures, and agreements to merge. Except as set forth in paragraph (c)(2)(ii)(A)(2) of this section, stock options, convertible debentures, and agreements to merge (including agreements in principle) are generally considered to have a present effect on the power to control the concern. Therefore, in making a size determination, such options, debentures, and agreements are generally treated as though the rights held thereunder had been exercised. However, an affiliate cannot use such options and debentures to appear to terminate its control over another concern before it actually does so.

*Example 1 to paragraph (c)(5)(v).* If company B holds an option to purchase a controlling interest in company A, who holds an attributable interest in a PCS application, the situation is treated as though company B had exercised its rights and had become owner of a controlling interest in company A. The gross revenues of company B must be taken into account in determining the size of the applicant.

*Example 2.* If a large company, BigCo, holds 70% (70 of 100 outstanding shares) of the voting stock of company A, who holds an attributable interest in a PCS application, and gives a third party, SmallCo, an option to purchase 50 of the 70 shares owned by BigCo, BigCo will be deemed to be an affiliate of company A, and thus the applicant, until SmallCo actually exercises its option to purchase such shares. In order to prevent BigCo from circumventing the intent of the rule which requires such options to be considered on a fully diluted basis, the option is not considered to have present effect in this case.

*Example 3.* If company A has entered into an agreement to merge with company B in the future, the situation is treated as though the merger has taken place.

NOTE TO PARAGRAPH (c)(5)(v): Mutually exclusive contingent ownership interests, i.e., one or more ownership interests that, by their terms, are mutually exclusive of one or more other ownership interests, shall be calculated as having been fully exercised only in the possible combinations in which they can be exercised by their holder(s). A contin-

gent ownership interest is mutually exclusive of another only if contractual language specifies that both interests cannot be held simultaneously as present ownership interests.

(vi) *Affiliation under voting trusts.* (A) Stock interests held in trust shall be deemed controlled by any person who holds or shares the power to vote such stock, to any person who has the sole power to sell such stock, and to any person who has the right to revoke the trust at will or to replace the trustee at will.

(B) If a trustee has a familial, personal or extra-trust business relationship to the grantor or the beneficiary, the stock interests held in trust will be deemed controlled by the grantor or beneficiary, as appropriate.

(C) If the primary purpose of a voting trust, or similar agreement, is to separate voting power from beneficial ownership of voting stock for the purpose of shifting control of or the power to control a concern in order that such concern or another concern may meet the Commission's size standards, such voting trust shall not be considered valid for this purpose regardless of whether it is or is not recognized within the appropriate jurisdiction.

(vii) *Affiliation through common management.* Affiliation generally arises where officers, directors, or key employees serve as the majority or otherwise as the controlling element of the board of directors and/or the management of another entity.

(viii) *Affiliation through common facilities.* Affiliation generally arises where one concern shares office space and/or employees and/or other facilities with another concern, particularly where such concerns are in the same or related industry or field of operations, or where such concerns were formerly affiliated, and through these sharing arrangements one concern has control, or potential control, of the other concern.

(ix) *Affiliation through contractual relationships.* Affiliation generally arises where one concern is dependent upon another concern for contracts and business to such a degree that one concern has control, or potential control, of the other concern.

(x) *Affiliation under joint venture arrangements.* (A) A joint venture for size

determination purposes is an association of concerns and/or individuals, with interests in any degree or proportion, formed by contract, express or implied, to engage in and carry out a single, specific business venture for joint profit for which purpose they combine their efforts, property, money, skill and knowledge, but not on a continuing or permanent basis for conducting business generally. The determination whether an entity is a joint venture is based upon the facts of the business operation, regardless of how the business operation may be designated by the parties involved. An agreement to share profits/losses proportionate to each party's contribution to the business operation is a significant factor in determining whether the business operation is a joint venture.

(B) The parties to a joint venture are considered to be affiliated with each other. Nothing in this subsection shall be construed to define a small business consortium, for purposes of determining status as a designated entity, as a joint venture under attribution standards provided in this section.

(xi) *Exclusion from affiliation coverage.* For purposes of this section, Indian tribes or Alaska Regional or Village Corporations organized pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. 1601 *et seq.*), or entities owned and controlled by such tribes or corporations, are not considered affiliates of an applicant (or licensee) that is owned and controlled by such tribes, corporations or entities, and that otherwise complies with the requirements of this section, except that gross revenues derived from gaming activities conducted by affiliate entities pursuant to the Indian Gaming Regulatory Act (25 U.S.C. 2701 *et seq.*) will be counted in determining such applicant's (or licensee's) compliance with the financial requirements of this section, unless such applicant establishes that it will not receive a substantial unfair competitive advantage because significant legal constraints restrict the applicant's ability to access such gross revenues.

(6) *Consortium.* A consortium of small businesses, very small businesses, or entrepreneurs is a conglomerate organization composed of two or more enti-

ties, each of which individually satisfies the definition of a small business, very small business, or entrepreneur, as those terms are defined in the service-specific rules. Each individual member must constitute a separate and distinct legal entity to qualify.

(d) The Commission may set aside specific licenses for which only eligible designated entities, as specified by the Commission, may bid.

(e) The Commission may permit partitioning of service areas in particular services for eligible designated entities.

(f) *Bidding credits.* (1) The Commission may award bidding credits (*i.e.*, payment discounts) to eligible designated entities. Competitive bidding rules applicable to individual services will specify the designated entities eligible for bidding credits, the licenses for which bidding credits are available, the amounts of bidding credits and other procedures.

(2) *Size of bidding credits.* A winning bidder that qualifies as a small business or a consortium of small businesses may use the following bidding credits corresponding to their respective average gross revenues for the preceding 3 years:

(i) Businesses with average gross revenues for the preceding years, 3 years not exceeding \$3 million are eligible for bidding credits of 35 percent;

(ii) Businesses with average gross revenues for the preceding years, 3 years not exceeding \$15 million are eligible for bidding credits of 25 percent; and

(iii) Businesses with average gross revenues for the preceding years, 3 years not exceeding \$40 million are eligible for bidding credits of 15 percent.

(3) *Bidding credit for serving qualifying tribal land.* A winning bidder for a market will be eligible to receive a bidding credit for serving a qualifying tribal land within that market, provided that it complies with §1.2107(e). The following definition, terms, and conditions shall apply for the purposes of this section and §1.2107(e):

(i) *Qualifying tribal land* means any federally recognized Indian tribe's reservation, Pueblo, or Colony, including former reservations in Oklahoma, Alaska Native regions established pursuant

## Federal Communications Commission

## § 1.2110

to the Alaska Native Claims Settlement Act (85 Stat. 688), and Indian allotments, that has a wireline telephone subscription rate equal to or less than eighty-five (85) percent based on the most recently available U.S. Census Data.

(ii) *Certification.* (A) Within 180 days after the filing deadline for long-form applications, the winning bidder must amend its long-form application and attach a certification from the tribal government stating the following:

(1) The tribal government authorizes the winning bidder to site facilities and provide service on its tribal land;

(2) The tribal area to be served by the winning bidder constitutes qualifying tribal land; and

(3) The tribal government has not and will not enter into an exclusive contract with the applicant precluding entry by other carriers, and will not unreasonably discriminate among wireless carriers seeking to provide service on the qualifying tribal land.

(B) In addition, within 180 days after the filing deadline for long-form applications, the winning bidder must amend its long-form application and file a certification that it will comply with the construction requirements set forth in paragraph (f)(3)(vi) of this section and consult with the tribal government regarding the siting of facilities and deployment of service on the tribal land.

(C) If the winning bidder fails to submit the required certifications within the 180-day period, the bidding credit will not be awarded, and the winning bidder must pay the balance on the original gross bid amount.

(iii) *Bidding credit formula.* Subject to the applicable bidding credit limit set forth in § 1.2110(f)(3)(iv), the bidding credit shall equal five hundred thousand (500,000) dollars for the first two hundred (200) square miles (518 square kilometers) of qualifying tribal land, and twenty-five hundred (2500) dollars for each additional square mile (2,590 square kilometers) of qualifying tribal land above two hundred (200) square miles (518 square kilometers).

(iv) *Bidding credit limit.* If the high bid is equal to or less than one million (1,000,000) dollars, the maximum bidding credit calculated pursuant to

§ 1.2110(f)(3)(iii) shall not exceed fifty (50) percent of the high bid. If the high bid is greater than one million (1,000,000) dollars, but equal to or less than two million (2,000,000) dollars, the maximum bidding credit calculated pursuant to § 1.2110(f)(3)(iii) shall not exceed five hundred thousand (500,000) dollars. If the high bid is greater than two million (2,000,000) dollars, the maximum bidding credit calculated pursuant to § 1.2110(f)(3)(iii) shall not exceed thirty-five (35) percent of the high bid.

(v) *Application of credit.* The bidding credit amount, if approved by the Commission, will be subtracted from the final net bid amount. The bidding credit will not affect calculation of the down payment.

(vi) *Post-construction certification.* Within fifteen (15) days of the third anniversary of the initial grant of its license, a recipient of a bidding credit under this section shall file a certification that the recipient has constructed and is operating a system capable of serving seventy-five (75) percent of the population of the qualifying tribal land for which the credit was awarded. The recipient must provide the total population of the tribal area covered by its license as well as the number of persons that it is serving in the tribal area.

(vii) *Performance penalties.* If a recipient of a bidding credit under this section fails to provide the post-construction certification required by paragraph (f)(3)(vi) of this section, then it shall repay the bidding credit amount in its entirety, plus interest. The interest will be based on the rate for ten-year U.S. Treasury obligations applicable on the date the license is granted. Such payment shall be made within thirty (30) days of the third anniversary of the initial grant of its license. Failure to repay the bidding credit amount and interest within the required time period will result in automatic termination of the license without specific Commission action.

(g) *Installment payments.* The Commission may permit small businesses (including small businesses owned by women, minorities, or rural telephone companies that qualify as small businesses) and other entities determined to be eligible on a service-specific

basis, which are high bidders for licenses specified by the Commission, to pay the full amount of their high bids in installments over the term of their licenses pursuant to the following:

(1) Unless otherwise specified by public notice, each eligible applicant paying for its license(s) on an installment basis must deposit by wire transfer in the manner specified in § 1.2107(b) sufficient additional funds as are necessary to bring its total deposits to ten (10) percent of its winning bid(s) within ten (10) days after the Commission has declared it the winning bidder and closed the bidding. Failure to remit the required payment will make the bidder liable to pay a default payment pursuant to § 1.2104(g)(2).

(2) Within ten (10) days of the conditional grant of the license application of a winning bidder eligible for installment payments, the licensee shall pay another ten (10) percent of the high bid, thereby commencing the eligible licensee's installment payment plan. If a winning bidder eligible for installment payments fails to submit this additional ten (10) percent of its high bid by the applicable deadline as specified by the Commission, it will be allowed to make payment within ten (10) business days after the payment deadline, provided that it also pays a late fee equal to five percent of the amount due. When a winning bidder eligible for installment payments fails to submit this additional ten (10) percent of its winning bid, plus the late fee, by the late payment deadline, it is considered to be in default on its license(s) and subject to the applicable default payments. Licenses will be awarded upon the full and timely payment of second down payments and any applicable late fees.

(3) Upon grant of the license, the Commission will notify each eligible licensee of the terms of its installment payment plan and that it must execute a promissory note and security agreement as a condition of the installment payment plan. Unless other terms are specified in the rules of particular services, such plans will:

(i) Impose interest based on the rate of U.S. Treasury obligations (with maturities closest to the duration of the license term) at the time of licensing;

(ii) Allow installment payments for the full license term;

(iii) Begin with interest-only payments for the first two years; and

(iv) Amortize principal and interest over the remaining term of the license.

(4) A license granted to an eligible entity that elects installment payments shall be conditioned upon the full and timely performance of the licensee's payment obligations under the installment plan.

(i) Any licensee that fails to submit its quarterly payment on an installment payment obligation (the "Required Installment Payment") may submit such payment on or before the last day of the next quarter (the "first additional quarter") without being considered delinquent. Any licensee making its Required Installment Payment during this period (the "first additional quarter grace period") will be assessed a late payment fee equal to five percent (5%) of the amount of the past due Required Installment Payment. The late payment fee applies to the total Required Installment Payment regardless of whether the licensee submitted a portion of its Required Installment Payment in a timely manner.

(ii) If any licensee fails to make the Required Installment Payment on or before the last day of the first additional quarter set forth in paragraph (g)(4)(i) of this section, the licensee may submit its Required Installment Payment on or before the last day of the next quarter (the "second additional quarter"), except that no such additional time will be provided for the July 31, 1998 suspension interest and installment payments from C or F block licensees that are not made within 90 days of the payment resumption date for those licensees, as explained in Amendment of the Commission's Rules Regarding Installment Payment Financing for Personal Communications Services (PCS) Licensees, *Order on Reconsideration of the Second Report and Order*, WT Docket No. 97–82, 13 FCC Rcd 8345 (1998). Any licensee making the Required Installment Payment during the second additional quarter (the "second additional quarter grace period") will be assessed a late payment fee equal to ten percent (10%) of the

amount of the past due Required Installment Payment. Licensees shall not be required to submit any form of request in order to take advantage of the first and second additional quarter grace periods.

(iii) All licensees that avail themselves of these grace periods must pay the associated late payment fee(s) and the Required Installment Payment prior to the conclusion of the applicable additional quarter grace period(s). Payments made at the close of any grace period(s) will first be applied to satisfy any lender advances as required under each licensee's "Note and Security Agreement," with the remainder of such payments applied in the following order: late payment fees, interest charges, installment payments for the most back-due quarterly installment payment.

(iv) If an eligible entity obligated to make installment payments fails to pay the total Required Installment Payment, interest and any late payment fees associated with the Required Installment Payment within two quarters (6 months) of the Required Installment Payment due date, it shall be in default, its license shall automatically cancel, and it will be subject to debt collection procedures. A licensee in the PCS C or F blocks shall be in default, its license shall automatically cancel, and it will be subject to debt collection procedures, if the payment due on the payment resumption date, referenced in paragraph (g)(4)(ii) of this section, is more than ninety (90) days delinquent.

(h) The Commission may establish different upfront payment requirements for categories of designated entities in competitive bidding rules of particular auctionable services.

(i) The Commission may offer designated entities a combination of the available preferences or additional preferences.

(j) Designated entities must describe on their long-form applications how they satisfy the requirements for eligibility for designated entity status, and must list and summarize on their long-form applications all agreements that affect designated entity status such as partnership agreements, shareholder agreements, management agreements and other agreements, including oral

agreements, establishing, as applicable, *de facto* or *de jure* control of the entity. Such information must be maintained at the licensees' facilities or by their designated agents for the term of the license in order to enable the Commission to audit designated entity eligibility on an ongoing basis.

(k) The Commission may, on a service-specific basis, permit consortia, each member of which individually meets the eligibility requirements, to qualify for any designated entity provisions.

(l) The Commission may, on a service-specific basis, permit publicly-traded companies that are owned by members of minority groups or women to qualify for any designated entity provisions.

(m) *Audits.* (1) Applicants and licensees claiming eligibility shall be subject to audits by the Commission, using in-house and contract resources. Selection for audit may be random, on information, or on the basis of other factors.

(2) Consent to such audits is part of the certification included in the short-form application (FCC Form 175). Such consent shall include consent to the audit of the applicant's or licensee's books, documents and other material (including accounting procedures and practices) regardless of form or type, sufficient to confirm that such applicant's or licensee's representations are, and remain, accurate. Such consent shall include inspection at all reasonable times of the facilities, or parts thereof, engaged in providing and transacting business, or keeping records regarding FCC-licensed service and shall also include consent to the interview of principals, employees, customers and suppliers of the applicant or licensee.

(n) *Gross revenues.* Gross revenues shall mean all income received by an entity, whether earned or passive, before any deductions are made for costs of doing business (e.g., cost of goods sold), as evidenced by audited financial statements for the relevant number of most recently completed calendar years or, if audited financial statements were not prepared on a calendar-year basis, for the most recently completed fiscal years preceding the filing

## § 1.2110

of the applicant's short-form (FCC Form 175). If an entity was not in existence for all or part of the relevant period, gross revenues shall be evidenced by the audited financial statements of the entity's predecessor-in-interest or, if there is no identifiable predecessor-in-interest, unaudited financial statements certified by the applicant as accurate. When an applicant does not otherwise use audited financial statements, its gross revenues may be certified by its chief financial officer or its equivalent and must be prepared in accordance with Generally Accepted Accounting Principles.

(o) *Total assets.* Total assets shall mean the book value (except where generally accepted accounting principles (GAAP) require market valuation) of all property owned by an entity, whether real or personal, tangible or intangible, as evidenced by the most recently audited financial statements or certified by the applicant's chief financial officer or its equivalent if the applicant does not otherwise use audited financial statements.

[63 FR 2343, Jan. 15, 1998; 63 FR 12659, Mar. 16, 1998, as amended at 63 FR 17122, Apr. 8, 1998; 65 FR 47355, Aug. 2, 2000; 65 FR 52345, Aug. 29, 2000; 65 FR 68924, Nov. 15, 2000; 67 FR 16650, Apr. 8, 2002; 67 FR 45365, July 9, 2002; 68 FR 23422, May 2, 2003; 68 FR 42996, July 21, 2003; 69 FR 61321, Oct. 18, 2004]

EDITORIAL NOTE: At 68 FR 23422, May 2, 2003, § 1.2110 was amended by revising paragraph (f)(3)(viii). This amendment could not be incorporated because paragraph (f)(3)(viii) does not exist. For the convenience of the user, the added text is set forth as follows:

### § 1.2110 Designated entities.

\* \* \* \* \*

(f) \* \* \*

(3) \* \* \*

\* \* \* \* \*

(viii) *Partitioning and disaggregation.* Parties seeking approval for partitioning or disaggregation of tribal areas obtained pursuant to the tribal lands bidding credit shall request an authorization for partial assignment of a license pursuant to § 1.948.

(A) *Partitioning.* A licensee of a market obtained using a tribal lands bidding credit may partition the tribal lands within its market. The partitioned area must include all tribal areas within the market subject to

## 47 CFR Ch. I (10–1–05 Edition)

the tribal lands bidding credit. The partitionee must certify that it will satisfy the construction requirements set forth in paragraph (f)(3)(vi) of this section.

(B) *Disaggregation.* Spectrum covering tribal lands may be disaggregated in any amount. The disaggregated spectrum must include all tribal areas within the market subject to the tribal lands bidding credit. The original licensee must certify that it will satisfy the construction requirements set forth in paragraph (f)(3)(vi) of this section, unless the parties to the transaction inform the Commission otherwise.

EFFECTIVE DATE NOTE: At 70 FR 57187, Sept. 30, 2005, § 1.2110 was amended by revising paragraph (b)(3)(iii)(A), effective Dec. 9, 2005. For the convenience of the user, the revised text is set forth as follows:

### § 1.2110 Designated entities

\* \* \* \* \*

(b) \* \* \*

(3) \* \* \*

(iii) \* \* \*

(A)(I) An applicant will be exempt from § 1.2110(c)(2)(ii)(F) for the purpose of attribution in § 1.2110(b)(1), if the applicant or a controlling interest in the applicant, as the case may be, meets all of the following conditions:

(i) The applicant (or the controlling interest) is organized as a cooperative pursuant to state law;

(ii) The applicant (or the controlling interest) is a "rural telephone company" as defined by the Communications Act; and

(iii) The applicant (or the controlling interest) demonstrates either that it is eligible for tax-exempt status under the Internal Revenue Code or that it adheres to the cooperative principles articulated in *Puget Sound Plywood, Inc. v. Commissioner of Internal Revenue*, 44 T.C. 305 (1965).

(2) If the condition in paragraph (b)(3)(iii)(A)(I)(i) above cannot be met because the relevant jurisdiction has not enacted an organic statute that specifies requirements for organization as a cooperative, the applicant must show that it is validly organized and its articles of incorporation, by-laws, and/or other relevant organic documents provide that it operates pursuant to cooperative principles.
